RELEVANT EXPERIENCE

- **Application Developer** – *JIL Information Technology (Jaypee Group), Ghaziabad*
  Sep 2023 – Present – *Built 5+ Flutter apps using GetX, Bloc, MVVM & Clean Architecture; added real-time features via WebSocket; delivered scalable, tested solutions.*
- **Flutter Developer** – *Webappssol Pvt. Ltd., Kolkata*
  Aug 2021 – Aug 2023 – *Developed 10+ apps with GetX/Provider; integrated Firebase (Auth, Firestore, Notifications); implemented chat & payments.*

PROJECT EXPERIENCE

1. Jaypee Greens Golf 🔗 **Play Store Link**
Golf club management app for members and staff. Features include tee time bookings, score tracking, event schedules, and real-time notifications.

2. StayNTravel Master 🔗 **Play Store Link**
Admin panel app for managing hotel operations, including room bookings, guest check-ins/outs, room assignments, property management across locations, dine-in reservations, and food order handling.

3. StayNTravel Guest 🔗 **Play Store Link**
Guest-facing travel app for hotel booking, reservation management, exploring local attractions, booking dine-in tables, and ordering food directly from the hotel restaurant.

4. HelloAstro – Customer App 🔗 **Play Store Link**
An astrology consultation app allowing users to connect with astrologers, schedule sessions, and receive personalized predictions.

5. HelloAstro – Astrologer App 🔗 **Play Store Link**
An app for astrologers to manage appointments, conduct consultations, and engage in real-time chat with clients.

6. Smart E-Tracker 🔗 **Play Store Link**

GPS tracking solution for personal and fleet vehicles. Offers live tracking, location history, and geo-fencing alerts.

7. Hotel Tania 🔗 **Play Store Link**
Hotel service app enabling room bookings, in-room service requests, and seamless guest communication through in-app notifications.

8. NewBazar 🔗 **Play Store Link**
E-commerce app for purchasing groceries and essentials with features like product browsing, order tracking, and secure payments.

8. Chand Chacha
An agriculture-focused app for Resurgent India Food and Fuel Service Pvt. Ltd. enabled drone booking for fertilizer spraying, fertilizer purchases with slot booking, and modules for wholesalers and retailers to manage bulk transactions and inventory. Included stock updates, order processing, employee monitoring, and sales-based incentives. No longer on the Play Store.

10. Ylo Cabs (Ola-like App)
Full-featured cab booking app with live ride tracking, driver assignment, fare calculations, and secure in-app payments. Though no longer on the Play Store, it was one of the most complex and rewarding projects I've delivered.

Awards & Recognition

Team Value Contribution Award – *JIL Information Technology (Jaypee Group)*
Recognized as part of the development team for outstanding contribution to delivering high-impact mobile solutions.
